ADDITIONAL DETAILS OF COMPLAINT, PROGRESS, PROPERTY, ETC.

During the time that Attorney Jack Brunnmeyer was talking to Cleve Heidelberg I over heard part of their conversation. The conversation went something like this. Cleve Heidelberg was telling Jack Brunnmeyer that he and a Lester Mason were together with another person whose name I did not catch but it sounded like a Robinson. From what I got Heidelberg was trying to tell Mr. Brunnmeyer that all three were together Mason wanted to borrow Cleve Heidelberg's Car. The conversation went on that Cleve Heidelberg did get out of the car don't know where but later I heard The T & T Club mentioned. Cleve Heidelberg then said that he let Lester Mason use his car and that he did leave his gun in the car. Also the mention of All three going to Clark Station (The Clark Gas Station on McAurthur was robbed by three Colored Male subjects 25 May 70.)

Later I heard Cleve tell Mr. Brunnmeyer that he was walking to see someone at 409 W. Seventh. Cleve Heidelberg said that he was on Butler St. and seen alot of Police cars in the Area. He told Mr. Brunnmeyer he was going to get his car and the police and Two dogs grabbed him. It also sounded like he said that he saw Lester Mason running away from the Butler Area but I am not sure about this part it was not real clear.

Heidelberg told Brunnmeyer that he was with some girl and that also a couple of other people did see him. But when Brunnmeyer asked Heidelberg who he was with or who had seen him he stuttered and said that he could not remember who it was that seen him. Brunnmeyer told Heidelberg to let him handle this and not to tell this story to any one because the police could check this out and then he would not have any alibi.

I caught several other comments. in the conversation.
